

The Library partners with parents to help children Grow Up Reading™

Parents are a child's first teachers. Help your child develop essential early literacy skills and build a strong foundation for future reading success with these six powerful practices.

Talking Singing Reading Writing

Frosty the snowman

Is a fairy tale they say

He was made of snow

But the children know

How he came to life one day.

In that old silk hat they found

He began to dance around.

Frosty the snowman

And the children say

Frostv the snowman

So he said, "Let's run

And we'll have some fun

Now before I melt away".

Was alive as he could be

He could laugh and play

Just the same as you and me.

Knew the sun was hot that day

There must have been some magic

For when they placed it on his head

Gounting

Grow Up Reading™ Tips for January: Counting

- Math is too important to leave to chance learning. Counting activities should be intentional, purposeful, playful, and FUN. Include creative counting activities into your everyday routines.
- Toddlers are natural sorters. By age 2, they start recognizing and making comparisons, such as more, same, and different. They enjoy organizing multiple objects into specific "sets", i.e., groups or categories. Asking a child to sort their prized dinosaurs into groups, such as big and small, is the basis of a few important early math skills. First, they can compare the groups. (There are more small dinosaurs.) They can count how many are in each group (two big ones, six small ones). They can also re-sort in different ways (the ones with spikes here, the ones without spikes there; arranging the dinosaurs in order from shortest to tallest).
- Mathematics learning starts in infancy and happens everywhere, all the time. For this reason, families are critical to supporting math learning, and research shows that families can do it in unpressured and socially positive ways. For example, reading all kinds of books with math content can lead to enjoyable parent-child conversations.

Book Suggestions for January:

Bear and Wolf by Dan Salmieri

Dragons Sledding Adventure by Beth Matheson

Trv a Little Kindness: A Guide to Being Better by Henry Cole

A Winter Walk in the City by Cathy Goldberg Fishman

Winter is the Warmest Season by Lauren Stringer

Frosty the Snowman

Frosty the snowman Knew the sun was hot that day So he said, "Let's run And we'll have some fun Now before I melt away".

Down to the village With a broomstick in his hand Running here and there All around the square Saving "Catch me if you can".

He led them down the streets of town Right to the traffic cop And he only paused a moment when He heard him holler "Stop!".

Frosty the snowman Had to hurry on his way But he waved goodbye saying, "Don't you cry I'll be back again some day".

Thumpity, thump, thump Thumpity, thump, thump Look at Frosty go.

Thumpity, thump, thump Thumpity, thump, thump Over the hills of snow.

Where is Bear?

(Tune: Where is Thumbkin)

Where is bear? Where is bear? Here I am. Here I am. How are you this winter? Very tired thank you. Go to sleep, go to sleep.

Use other hibernating animals such as bunnies, skunks, bats, chipmunks, etc.

Virtual Programs

The Library continues to offer programs for children and families of all ages. Visit the Library Event Calendar* to stay up to date and pre-register for programs. All programs are housed via Zoom online. Some programs, including Positively Preschool and Terrific Tots, include a bag of materials to checkout for use during the program.
